

Please accept our invitation to the next 'Innovation Forss' event as part of the innovation forum:

Producing Quality Food and Drink Products – Meet the Food Innovation Institute

Thursday 25th October 12:30 for 1pm - 3pm
Murkle Conference Room, Forss Business & Technology Park

The **Food Innovation Institute (F2i)** has been established in Moray to assist Scottish manufacturers to produce the highest quality products, with added customer value, in the price range they require. The focus is along the entire food chain, from farm production to retail output, and on all the consequent factors, from shelf-life to health.

Hear about the services that F2i can help businesses with, research projects it has been involved in and examples of past work.

We also plan a round-table discussion with David Miskin of F2i, to come up with ideas for potential collaborative research projects that could help the local producers

Additionally there will be time for one to one sessions with David to discuss individual needs.

The F2i website can be found at;
www.innovatingfood.co.uk

Places are free and a light buffet lunch will be provided at the start.

Please book your place by contacting Marion Sutherland of New Park on:
marion.sutherland@newpark.co.uk or by calling 01847 808100.

This event is sponsored by HIE Caithness and Sutherland.

I look forward to seeing you there.

Best regards

Neil
